Paula

Wed. after lunch would work best for me. Please let me know what you work out after the others have responded.

Thank you Matt for your phone call and forwarding this to the other USFS folks. I will wait to hear from them as to when they could meet next week.

Paula Schmittdiel

Paula,

I'm out all next week, but will be touching bases with Brent Lewis on Thursday or Friday. That said, I think Kelly Palmer (Forest Hydrologist), Clay Kampf (Fisheries Biologist), and Mary Blanchard (Engineer/AML Coordinator) should try to meet with you on Wednesday if their schedules permit. I've cc'd them so any coordination can occur between the 4 of you.

Thanks for touching bases with us,

Matt

Subject: EPA would like to meet on Upper Animas

Matt – Lisa Richardson gave me your name and contact information. EPA has been conducting water quality sampling in the Upper Animas River watershed around Silverton and between Silverton and Durango. We will be in Silverton and Durango next week and would like to meet with you and Kara Chadwick if possible to bring the Forest Service up to date on our activities and some activities planned for the near future.

We will be arriving in Durango on Monday afternoon ~ 3:30 and could meet a little after 4:00 pm in Durango before we drive to Silverton if that would be convenient for both you and Kara. Tuesday, we will be in Silverton for meetings with the stakeholder group in the afternoon and evening. We have most of Wednesday available until ~ 4:00 PM if that day would work better. Please feel free to give me a call either at my office number this week or on my cell phone next week.

Thank you and we look forward to meeting with you.
